*With Giita Gabrielle Anicete*

*This recording represents the fulfilment of a long cherished dream. The two of us have been friends for many years and have often played music together but Flight of Love is our first full collaboration. This album was conceived of in the winter of 2007 by the frozen fjord of Kragero, Norway and was finally born this spring. We hope you love it as much as we do.*

## Kiirtan

Flight of Love contains a series of a spiritual chants (or mantras) set to six different tunes. This form of chanting is known as Kiirtan. A Mantra is a word or phrase that 'liberates the mind from ignorance and darkness'. Spiritual mantras are chosen for their particular sound, and their deeply inspiring meaning and are charged with spiritual power. Devotional singing and chanting are a part of practically every spiritual tradition in the world. Kiirtan, or singing the name(s) of God, has been practised in the yoga tradition for thousands of years. It helps us to develop a personal connection with the divine and experience the infinite love within us. It is an excellent way to prepare oneself for meditation.

*Kiirtan will always remind you that you are the affectionate children of the Supreme. In kiirtan there is no distinction between educated and uneducated, between black and white. So do Kiirtan, sing kiirtan, chant Kiirtan, whenever and wherever possible.*

**Shrii Shrii Anandamurti**

*One must do kiirtan not only to surmount physical afflictions, but psychic and spiritual afflictions as well... Kiirtan will help you in all circumstances, in all possible ways.*

**Shrii Shrii Anandamurti**

## Baba Nam Kevalam

This is a universal mantra newly created by the spiritual master Shrii Shrii Anandamurti. A simple translation would be love is all there is. When meditating with this mantra, try to feel the invisible, benevolent presence of the Supreme Consciousness, pervading and surrounding you and all that exists.
